Friday - 24 March 1967

[REDACTED]

25X1

2. [REDACTED] Talked again with George Murphy, Joint Committee on Atomic Energy staff, concerning his desire for information on the "NATO spy case." After conferring with [REDACTED] CI Staff, and Mr. [REDACTED] on this subject, I gave Mr. Murphy some of the basic facts in the situation pointing out that this case had been highly over-rated in the press. Mr. Murphy said this information would satisfy him for the moment, and I will be in further touch with him early next week.
